

SHIVAM RAJPUT

New Delhi, India | +91 90399 71486 | 98.shivrajput@gmail.com | linkedin.com/in/shivam-rajput-3928a328a | github.com/shivamrajput-py

SUMMARY

GenAI Engineer with **2 shipped GenAI products & 15+ paying B2B customers**, with production experience in **multi-agent systems, LLM fine-tuning, RLHF, and LLM application development**. B.Tech Engineering Physics (DTU, 2023–27); strong foundations in linear algebra, probability, and statistics.

EXPERIENCE

ArchGen AI Labs Pvt. Ltd. · archgen.in

Lead AI/ML Engineer · **Founding Team**

New Delhi

Aug 2024 – Dec 2025

Phase II: ArchGen – AI-Native Text-to-CAD Platform

- Architected an **8-stage autonomous Text-to-CAD agentic pipeline** via LangGraph (PromptValidator → LLM+RAG CADGenerator → PhysicsChecker [16 checks] → FEMValidator [CalculiX] → VisualAssessor [VLM multimodal] → RefinementAgent loop); reduced design iteration from **5 days to 1 hour**, validated across 23+ engineers.
- Built **FAISS vector retrieval with semantic reranking**; curated **10,000+ prompt-CAD training pairs (CadQuery + OpenSCAD)** with CoT metadata for SFT; implemented **RLHF feedback loop** where user-approved designs above quality threshold are auto-ingested into the RAG dataset.
- Deployed via **FastAPI + WebSocket** for live multi-agent streaming, Docker + AWS, async Python, OpenRouter with model routing & fallback.
- Recognised: **Top 8 Startup – E-Cell IIT KGP**; shortlisted **Ciena × Nasscom TechForChange Cohort 4**; incubated by DTU IIF & Atal Incubation Centre.

Phase I: Vyvsai – AI-Driven Construction Tech Platform

- Scraped **50+ e-procurement portals** (Scrapy + Selenium); built **ML bid-price prediction model** to automate contractor bid estimation across a **20,000+ contractor network** with live WhatsApp/email alerts. Reached **₹30K ARR** with 10 paid customers.

Trendsta · trendsta.in

Lead GenAI Engineer · **Founding Team**

New Delhi

Jan 2026 – Apr 2026

- Built a **trend intelligence pipeline** ingesting 5,000+ data points/cycle from Instagram, Twitter, Google Trends & web search; NLP surfaces trend velocity, virality signals, and niche content gaps as structured reports.
- Developed a **personalised AI content consultant (LLM + RAG + RLHF)** with vector-embedded per-client KB ingesting niche, past content & live trends to generate platform-specific growth strategies.
- Grew from 0 to **5+ paying B2B customers in 21 days**.

PROJECTS

HellooMedia – AI Content Automation Pipeline · github.com/shivamrajput-py/Content-Automation-AgenticAI

AI Automation Engineer · **Freelance**

Remote

Oct 2025 – Dec 2025

- Built a **zero-touch n8n pipeline**: Apify scraping → Claude scripting → HeyGen avatar → ElevenLabs voice → QuickReel captions → scheduled publish to Instagram, YouTube, Facebook + ManyChat DM automation. Cut production from **24+ hours to under 15 minutes**.

RawCult – Fashion Trend Analytics · trendanalysisrawcult.streamlit.app · github.com/shivamrajput-py/Fashion-Trend-Analysis

Data Engineer · **Freelance**

Remote

Dec 2024 – Feb 2025

- Scraped **6,000+ products across 15+ platforms**; built weighted scoring model (Quality ×0.6, Engagement ×0.25, Popularity ×0.15) with NLP for trending fabrics, colors & silhouettes; delivered via **Streamlit + Plotly dashboard** driving procurement decisions.

DTU Student Analytics Platform · dtureresults.streamlit.app · github.com/shivamrajput-py/See-Your-Results

Personal Project

Remote

Jun 2024 – Aug 2024

- Parsed 100+ result PDFs; structured **50,000+ academic records** with Pandas (CGPA trends, percentile shifts, rank progressions) built Streamlit app with rankings, SGPA calculator & report cards - reached **3,000+ unique DTU students**.

EDUCATION

Delhi Technological University (DTU)

B.Tech, Engineering Physics

New Delhi, India

Aug 2023 – May 2027

Elective Coursework: Machine Learning, Deep Learning, Quantum Computing, MATLAB, Database Management Systems, AI in Material Science, C Language

TECHNICAL SKILLS

LLM & Generative AI: RAG, FAISS, Pinecone, Vector Embeddings, Embedding Models, Reranking, Multimodal LLMs, Prompt Engineering, LLM Fine-Tuning (SFT), RLHF, LoRA, QLoRA, HuggingFace (Transformers, Hub), OpenAI API, Anthropic Claude API, OpenRouter

Agent Frameworks: LangChain, LangGraph, Multi-Agent Pipelines, Tool Calling, Context Window Management, Memory Management, Agent Orchestration, n8n

ML & Deep Learning: PyTorch, scikit-learn, NLP, CNN, RNN, LSTM, GRU, Attention Mechanisms, Transformers, Diffusion Models, XGBoost, Random Forest, OpenCV

Backend & Infra: Python, FastAPI, WebSocket, Async Python, Flask, Docker, AWS (EC2, Lambda), GitHub Actions (CI/CD), PostgreSQL, SQL, Linux/Bash, Pydantic, REST API Design

Data & Scraping: Pandas, NumPy, Streamlit, Scrapy, Selenium, Apify

Tools: Git, GitHub, VS Code, Claude Code, Jupyter, MATLAB, Postman, Weights & Biases
